Profile

I'm a Computer Science student with adequate knowledge of Programming. I have an avid interest in all fields, and I never stop searching for new forms of self-expression to improve my skills. I like adventures and traveling, making experiences and being constant inspired by new things and new people. I like variety in my routine because monotony kills me. I am looking for a chance to create, to learn, to share my passion with others to push my limits further every day.

Technical Skills

- Swift
- C++
- Java
- GO
- JavaScript
- CSS
- Python

Soft Skills

- Attention to detail
- Teamwork & cooperation
- Time management
- Communication
- Analysis
- Creativity

Projects Completed

iPhone Application
Created an app called Folio: Scan and Review for ability to take a picture of a book and extract reviews from multiple online sources like NY Times etc.

Google Chrome Extension for Blockchain Prices
Created multiple extension which helped me get data from multiple websites for the current prices of Crypto currencies and my balance.

Big Integer Class
To understand Data Abstraction and Encapsulation created a Big Integer Class which implemented all the basic operations (+, -, *, /).

Smart Pointer Class
Created a Smart Pointer Class to control memory which lets user encapsulate [new/delete] and [new[]/delete[]] in objects, which have destructors to release memory whenever needed

Education

Bachelor of Science in Computer Science 2014 - 2018
ARKANSAS STATE UNIVERSITY

High School Diploma from India 2012 - 2014
STEP BY STEP HIGH SCHOOL
